My name is John Quimby, CEO of Advanced Packaging located in Anytown, Iowa. My company employs roughly 50 people and we have been part of the local community for over 25 years. Attracting and retaining qualified employees is increasingly difficult. One of the major impediments to this is our community's inability to provide affordable, reliable internet services. Potential employees do not want to relocate to areas that do not have good access to the internet. Similarly, we have lost a number of employees who have moved to more urban areas where internet is more readily available.
