Aging, Iowa Department of

Mission Statement

The mission of the Iowa Department on Aging (IDA) is to develop a comprehensive, coordinated and cost-effective system of long term living and community support services that help individuals maintain health and independence in their homes and communities.

Description

Iowa Department on Aging is the central point of focus in state government regarding elder Iowans under both the federal Older Americans Act and Code of Iowa Chapter 231 and works through Area Agencies on Aging and the Iowa Aging Network to increase the public awareness of issues regarding elder Iowans and availability and access to programs and services to elder Iowans. Advocacy, case

management, and a broad array of home and community based services are provided to elders and their caregivers to reduce the incidence of institutional care (nursing homes and other more costly settings) and extend independent living. In FY2015, funding was provided to reestablish the Office of Substitute Decision Maker (OSDM). The mission of the OSDM is to preserve individual independence through a person centered process by educating, providing assistance to public and private substitute decision makers, assisting in substitute decision making proceedings and providing substitute decision making services in the least restrictive manner. Additionally, long-term care ombudsman services provide advocacy for elders in nursing homes and similar health care settings; all related to health, safety, and well-being.

Office of Long-Term Care Ombudsman

General Fund

Appropriation Description

This appropriation supports the activities of the Office of State Long Term Care Ombudsman. Advocates, including eight local long term care ombudsman located around the state are available to meet the needs of individuals residing in long term care facilities and assisted living programs. The local long term care ombudsmen investigate and resolve complaints by or on behalf of residents/tenants in nursing facilities, residential care facilities, assisted living programs and elder group homes as well as provided training and

consultations. With 55,684 beds/individuals in 868 long term care facilities across Iowa, the Office ensures vulnerable residents in long term care facilities have access to a long term care ombudsman.

In addition, volunteer ombudsmen are assigned to a facility as representatives of our office. The Office also implements a managed care ombudsman program which serves as an advocate for managed care members receiving services through the long-term services and supports system. Program staff handle complaints, assist with appeals and grievances and educate on Medicaid issues.

The Department has used these mandates and the

expressed needs of our consumers to establish a highly successful service delivery system that has been emulated both nationally and internationally.

The Department's three major service areas--vocational rehabilitation (VR), independent living (IL), and library--are provided through four organizational divisions: Field Operations, the Adult Orientation and Adjustment Center, the Business Enterprises Program (BEP), and the Library for the Blind and Physically Handicapped. The foundation that underlies all of our programs is our positive philosophy of blindness. This philosophy also underscores the Department's mission which guides the delivery of these services to our consumers.

Appropriation Description

The Iowa Civil Rights Commission (ICRC) is a law enforcement agency whose primary mission is to eliminate discrimination through enforcement of the Iowa Civil Rights Act (ICRA) through competent and timely processing of complaints received by the ICRC. Enforcement of the ICRA can only be achieved if the ICRC is staffed by a sufficient number of well trained, competent and accountable staff members or the equivalent of FY14 FTE levels.

ICRC provides a cost effective and accessible process that resolves discrimination complaints in the areas of employ-

ment, housing, public services (public accommodation), education, and credit. Complainants can file with or without an attorney; there are no costs for filing. To prevent discrimination, ICRC offers training, education, and community outreach.

An effective discrimination enforcement agency helps Iowa increase the pool of qualified workers, in turn insuring Iowa receives broad based economic contributions from all sectors of society and full benefits from a diverse, creative workforce. To attract and sustain a pool of highly skilled workers, our agency assists in the training of a culturally competent workforce. Our agency educates business and industry on discrimination laws and diversity issues to prevent problems and provide a more welcoming economic climate.

College Student Aid Commission

Mission Statement

We advocate for and support Iowans as they explore, finance and complete educational opportunities beyond high school to increase family and community success.

Iowa College Aid administers Iowa General Fund appropriations for need-based scholarships, grants and loan repayment/forgiveness opportunities, and advocates on behalf of Iowa students in the formation of public policy.

Description

Created in 1963 by the Iowa General Assembly, the Iowa College Student Aid Commission (Iowa College Aid) has served as the State of Iowa's student financial aid agency for over 50 years. Originally established to implement the federal assistance program for construction of academic facilities provided by the Higher Education Act of 1963, the agency has seen its responsibilities evolve to help make college possible for all Iowans.

Iowa College Aid also offers a range of services directly to students, families, educators and the general public related to college access, career planning, professional training for educators, regulatory compliance, postsecondary education research and activities to prevent student loan defaults. These services are performed under programs such as GEAR UP Iowa, Local College Access Networks (LCANs) and the high school-to-college 3-Step Process.

Utilities Division

Commerce Revolving Fund

Appropriation Description

This appropriation funds the operations of the Utilities Division within the Department of Commerce. The Utilities Division/Utilities Board is charged with the responsibility of establishing just and reasonable rates for consumers while maintaining the financial integrity of those utilities under its rate jurisdiction, ensuring efficient, safe, and reliable tele-

communications, electric, natural gas, and water utility services, overseeing energy efficiency programs, participating in relevant federal proceedings, and overseeing "Relay Iowa" and the equipment distribution program which enable people with communication impairments to access the telecommunications system. All Iowa Utilities Board costs are assessed directly to the state's utilities. If funding for the Utilities Board were to be eliminated, the state would be unable to regulate the rates and services of Iowa's electric, natural gas, water and telephone utilities. In 2015, these utilities collected more than \$6.5 billion from Iowans.

Corrections, Department of

Mission Statement

Creating Opportunities for Safer Communities.

Description

The Department of Corrections is an agency within the executive branch of state government. The department is responsible for administration of the nine institutions forming the state prison system as well as accreditation and funding of the eight district departments of correctional services to administer community-based corrections in the state. Community-based corrections encompasses pretrial, presentence investigation, probation, parole, special sentence supervision for sex offenders, and operates residential correctional facilities for offenders including work release and drunken driving treatment programs.

Currently the corrections system employs about 3,700 staff, has custody over more than 8,400 incarcerated individuals in prison, and supervises over 30,000 clients in the community.

Institutions and districts work together to provide seamless custody and supervision of clients including case planning and treatment to reduce recidivism and promote reentry into their communities. In order to most effectively carry out its mission, resources are focused toward individuals most likely to reoffend, and activities are focused on continuous improvement of the reentry process. In this way the department contributes to public safety and crime reduction, promotes offender accountability, makes responsible use of taxpayer dollars and provides quality services.

Iowa Vocational Rehabilitation Services

General Fund

Appropriation Description

To provide comprehensive vocational rehabilitation service to eligible disabled Iowans through the provision of diagnostic, evaluation, counseling, placement, training, maintenance, transportation and physical restoration services. This provision of service will result in Iowans achieving their employment, independence and economic goals.

By federal law, once an eligible client is on the caseload; he/she must receive the full range of VR services necessary to work toward his/her employment goal. While services actually used vary by individual, the services needed by each client must be provided. Consequently Case Services and Rehabilitation Services are inextricably linked in the delivery of services and goal achievement. Funds can be spent on personnel, operations, purchase of goods and services towards meeting client's employment goals, and third party cooperative arrangements with public entities to provide services for clients.

Independent Living

General Fund

Appropriation Description

The overall concept of Independent Living Rehabilitation Services (ILRS) is complementary to that of the traditional Vocational Rehabilitation program in that both are designed to assist people with disabilities to reach established goals. The major differences are that eligibility for ILRS is not contingent upon the consumer's employment potential; and the outcome of services is measured by the individual's ability to function more independently in their home, family and community rather than securing employment. Two

approaches are used to improve the capacity or enable individuals with severe physical or mental disabilities to function more independently in their family and community, or when appropriate, to secure or maintain employment. A program operated by IVRS which provides direct services, including assistive technology, to individuals to assist in independent functions. Funds can be spent on personnel, operations, and the purchase of goods and services towards meeting the client's independent living goals. Funds are also provided to Centers for Independent Living (CIL's) in local communities to build capacity for non-duplicative services and programs. Services are coordinated to assure that they are available statewide and to avoid duplication.

State Library

General Fund

Appropriation Description

The State Library's role in Iowa's library system is leadership and coordination. State Library services fall into two distinct groups, direct library services and statewide library development. Direct library services provide library services to the three branches of government, the Iowa legal community, the Iowa health care community, and the general public. In addition to a library of more than 200,000 book volumes and hundreds of magazine titles, resources found at the State Library include Iowa's only patents and

trademarks library, an extensive collection of publications produced by state government, federal publications, and Iowa's liaison to the U.S. Census Bureau for Iowa census data. The intent of the State Library's statewide library development services is to ensure all Iowans equitable access to library services. Statewide programs include SILO, Iowa's electronic library network; Enrich Iowa, Iowa's direct state aid program for public libraries; Open Access, Iowa's statewide library card program; Access Plus, Iowa's library to library loan program; library accreditation; and librarian certification. State appropriations fund all direct library services and the statewide library development services of Enrich Iowa, SILO, Open Access, and Access Plus.

Enrich Iowa Libraries

General Fund

Appropriation Description

Enrich Iowa, Iowa's direct state aid program for public libraries, is designed to improve library services and to reduce inequities among communities in the delivery of library services. The impact this program is having is: 1.) A number of libraries are increasing library hours making the library accessible in the evening and on weekends; 2.) Some libraries are making the Internet available to their communities for the first time while others are adding computer stations for public use; 3.) Others are purchasing new library

books, videos, books-on-tape, large print books, etc.; and 4.) Others have formed partnerships within their communities to support reading and literacy programs, to establish learning centers, to promote reading to infants and children.

Other benefits to Iowa communities are seen in the increased interest in librarian certification and library accreditation programs, increased enrollment by librarians in continuing education classes, and an increased demand by library boards for consultation and assistance in how to evaluate to improve local library services.

Programs include Iowa Shared Visions for preschool children and programs for children kindergarten through grade three. The Shared Visions programs provide parent support for children birth to 3 and preschool programs for children 3 to 5. Shared Visions programs include a collaborative partnership between local Empowerment Boards, Head Start, child-care providers, and school districts. Funds are allocated to

the Child Development Coordinating Council for Iowa's Shared Visions.

The Department of Education also directly grants funds to school districts for programs designed for at-risk children at the early elementary grades and for children prior to school age. In addition a portion of the appropriation is used to enable the AEAs to establish a network of consultants specializing in working on child development issues. Through this appropriation the department is allocated funds for the administration and support of the child development program.

Transportation Nonpublic Students

General Fund

Appropriation Description

The purpose of this program is to provide transportation for students attending approved nonpublic schools. Public school districts are required to provide transportation to children attending an approved nonpublic school, through either

the district's buses, contracted bus services, or parental reimbursement. Districts are reimbursed for costs of this service to the extent that funds are appropriated. If parents provide the transportation, claims are submitted to the Department of Education by the public school district to reimburse the parents. The amount of the claims is determined by a code specified formula. If the appropriation is insufficient to pay all claims of parent and districts, the payments are proportionally reduced.

Gap Tuition Assistance Fund - SWJCF

Iowa Skilled Worker and Job Creation Fund

Appropriation Description

Gap Tuition Assistance Fund program is a program designed to fill the gap where federal financial aid does not cover. These are shorter non-credit certificate programs that are not eligible for federal financial aid but help lead to

employment for the students. There are requirements regarding eligibility and participation and program requirements regarding what is an eligible program. All of these rules are spelled out in code. The 2 million appropriation is allocated among the 15 colleges to help subsidize the tuition costs for the students participating in the programs. Each college is responsible for how they fund the cost, whether they cover 100 percent of tuition and fees or whether it is some percentage of this.

Disability Determination Services

Fund Description

This account receives federal funds under an agreement with the Social Security Administration to determine if a person is eligible for social security disability benefits. Funds are spent directly from the fund and are used for personnel, operations, and medical evidence of record, and consultative examinations for disability applicants. The Disability Determination Services Bureau of the Division of Vocational Rehabilitation Services-Department of Education is a 100% Federally funded Program with its purpose being to provide for the determination of eligibility for Social Security Disability and Supplemental Security Income Benefits to Disabled Iowans. These Iowans have applied to the local

Social Security Office for these benefits. Their application is forwarded to the Disability Determination Services Bureau of the Division of Vocational Rehabilitation Services for the determination process as to their eligibility to receive these benefits. The Disability Determination Services Bureau of the Division of Vocational Rehabilitation Services-Department of Education will make disability decisions on disabled Iowans applying for Social Security benefits. It is anticipated that this determination process will result in Iowa applicants receiving disability benefits. A portion of these claims will be reviews of disability recipients to determine whether disability benefits should continue.

Pre Disaster Mitigation - Competitive

Fund Description

The Pre-Disaster Mitigation (PDM) program provides funds to States, Territories, federally recognized Indian Tribal governments, and communities for hazard mitigation planning and the implementation of mitigation projects prior to a disaster event. Funding these plans and projects reduces overall risks to the population and structures, while also reducing reliance on funding from actual disaster declarations.

Federal Emergency Management Agency (FEMA) will ensure that a State receives no less than \$500,000 for sub applications within the State that meet all the eligibility requirements of the program. All eligible sub applications compete nationally for the PDM funds.

General Fund

Appropriation Description

The appropriation enables Community Advocacy and Services (CAS) to offer programs, education and advocacy to serve underrepresented Iowans. CAS serves as a gateway, improving access to government services and other resources, enhancing youth leadership, building community connections, expanding language and communication access across the state, and increasing civic engagement. CAS collaborates with other state agencies and community organizations to connect marginalized Iowans with needed

programs, events, and information. CAS includes seven commissions, comprised of nearly 56 governor-appointed volunteers, working closely with each of the division's respective seven offices: Latino Affairs, Status of Women, Persons with Disabilities, Deaf Services, Status of African Americans, Asian and Pacific Islander Affairs and Native American Affairs.

In addition to appropriations, funds are received from Iowa Vocational Rehabilitation Services and Iowa Department for the Blind to share in the costs of the Youth Leadership Forum.

CJJP also administers federal grant programs that fund local and state projects to prevent juvenile crime, provide services to juvenile offenders and improve Iowa's juvenile justice system. It carries out its duties with the guidance of the Iowa Criminal and Juvenile Justice planning Advisory Council, the Public Safety Advisory Board, the Iowa Juvenile Justice Advisory Council, and other boards and Councils.

Child Support Recoveries

General Fund

Appropriation Description

All states participating in the FIP/TANF and IV-E foster care programs must have a child support recovery program. CSRU locates staff across the State to ensure compliance with Federal and State requirements for establishment and enforcement of child and medical support. Funding for these services is provided at both the state and federal level. The State's required match for operating costs of the program is 34%.

The primary expenditures from this account are payroll, travel costs, contractual services, and refunds to other programs (FIP, Foster Care, Medicaid).

CSRU establishes paternity in out-of-wedlock births so that two parents are legally responsible for the children, as well as establishing child support and medical orders, which creates the legal authority to collect support and enforce health insurance for children. Collections for public assistance families are assigned to the State to help reimburse taxpayer costs. Customers can apply to have child and medical support orders modified. There are also limited special services to facilitate access and visitation and other parental activities to address barriers to the payment of support.

MI/MR/DD State Cases

General Fund

Appropriation Description

The state payment program funds mental health and disability services for adults with mental illness, intellectual disability, and/or a developmental disability. The State Payment Program originally funded mental health and

disability services for individuals who did not have a county of legal settlement. Beginning July 1, 2013, the legal settlement concept was replaced with county of residency so the majority of individuals served in the state payment program will have an identified county of residence. The county of residency is now responsible for funding non-Medicaid eligible services. The state payment program funds services for individuals whose county of residency is unknown using federal Social Services Block Grant funding.

Decategorization

General Fund

Appropriation Description

Decategorization is a program designed to reduce the number of children placed in out-of-home care and promote development of community-based services. The program is required to be budget neutral and projects are permitted to carry forward unspent funds into the next two (2) fiscal years to invest in preventive services.

Decat is funded primarily through transfers from the appropriation for Child and Family Services, (including a \$1.7 million direct allocation). DECAT provides services based on client needs rather than through a multitude of programs and different requirements for eligibility. The Decat program is used in all 99 counties. The traditional funding streams for foster care and juvenile justice are consolidated into a single child welfare fund and are not restricted by

individual funding levels. The fund is composed of all or part of the amount that would be used on behalf of county residents for family centered services, court ordered and delinquency services, and foster care. The main expenditures from this account include contractual services and state aid. (Note: State funds for DHS core programs, listed above, are transferred to the DECAT appropriation at the beginning of the fiscal year and core services are paid from this appropriation. The unspent balance of state funds at the end of the fiscal year is eligible for transfer to local DECAT boards.)

The Decategorization (DECAT) appropriation does not receive any appropriated state dollars directly. All funding provided to DECAT, including the \$1.7M DECAT services allocation, is appropriated to the Child and Family Services appropriation. Funding for the \$1.7M DECAT allocation and for services managed by DHS service area managers, is transferred to the DECAT appropriation.

State Housing Trust Fund

Fund Description

Iowa Code requires 60 percent of available funds in the State Housing Trust Fund (SHTF) be awarded to Local

Housing Trust Funds (LHTF) and 40 percent awarded to specific affordable housing projects.

IFA currently administers the fund pursuant to an Annual SHTF Allocation Plan. LHTF are formal, active and vital

community-based organizations engaged in addressing impediments that cause communities to be less attractive. They collaborate and network with and receive support from local entities and leverage local resources, finances and talent from public and private sectors. Most operate county-wide or regionally. Offering a competitive state grant program encourages community leaders to organize eligible LHTF boards to apply for STHF program funds. Since July 2003 when Code 16.181 was enacted, cities, counties or regions have established nineteen IFA-certified LHTF boards.

To date, the monies have been spent for construction, rehab and preservation of single family and multi family housing; owner-occupied rehab and repairs and emergency owner repair; repairs and maintenance of nonprofit owned units; operations and housing supportive services for nonprofit entities; down payment and closing cost assistance for first time homebuyers; funding for emergency shelters and transitional housing; housing for persons with disabilities; neighborhood-wide housing rehabilitation; gap financing for new subdivisions which offer affordable housing to working families; and, funding to provide downtown second-story affordable loft housing as a way to attract and keep young professionals in the community. At least 30 percent of funds must be used to assist extremely low-income households.

IPERS Administration

Mission Statement

Administer a cost-efficient retirement plan that provides lifetime pension payments to public employees and serves to attract and retain a quality workforce. IPERS is a sustainable and affordable retirement plan that is valued by all Iowans and provides members with secure income, supports self-sufficiency in retirement, and contributes to local economics.

IPERS, a state agency in the executive branch of state government, has provided a pension plan for Iowa's public employees for over 60 years. IPERS is a defined benefit plan funded through member contributions, employer contributions, and investment income.

Description

IPERS is the largest public pension plan in Iowa with over 360,000 members, over 1,900 participating public employers, and a trust fund with a market value of over \$32 billion at the end of fiscal year 2018. Approximately 170,000 members are active members who are working for a public employer and contributing to IPERS. There are about 120,000 retired members. IPERS membership also includes inactive members who no longer pay into the system but still have money in the trust fund.

By law, most individuals become members of IPERS when they begin employment at any IPERS-covered public employer, which includes schools, cities, counties, state government, and other government agencies. IPERS members range in age from 16 to over 100. Members live in all 99 Iowa counties and most benefit recipients stay in Iowa when they retire.

Law Enforcement Academy

Mission Statement

Professionalism through training.

Description

The Iowa Law Enforcement Academy provides the best basic, specialty, and supervisory training to Iowa peace officers, jailers, and telecommunicators. This training includes instructor certification in several areas such as firearms, defensive tactics, driving, and jail training. The training is conducted both at the Academy located on Camp Dodge in Johnston as well as across the State of Iowa.

The Academy is the sole regulator of law enforcement, jailer, and telecommunicator training in Iowa. The Academy oversees Level I regional basic training academies

at the Des Moines Police Department, the Cedar Rapids Police Department, and the Department of Public Safety, plus two Level II short program basic training academies at Hawkeye Community College and Western Iowa Technical Community College. The staff psychologist conducts psychological and cognitive testing for those people being hired in all law enforcement agencies and for those being considered for promotion in the Sheriffs' Offices. The Academy sets the standards for continuing education requirements for law enforcement personnel as well as the standards for hiring and training of Iowa reserve peace officers. The Academy is responsible for certifying all peace officers in the state of Iowa and for decertifying those officers who violate established standards of behavior for Iowa peace officers.

Legislative Branch

Mission Statement

The legislative branch creates laws that establish policies and programs.

Description

The legislative authority of the State is vested in a General Assembly consisting of a fifty member Senate and a one

hundred member House of Representatives. The General Assembly meets annually commencing on the second Monday in January. Each House sits upon its own adjournments; keeps a journal of its proceedings; publishes the same; determines its rules of proceedings, punishes members for disorderly behavior; and, with two thirds consent of its members, can expel a member. It has all powers necessary for a branch of the General Assembly of a free and independent state.

Local Government Budget & Property Tax System Upgrade/Redesi

Technology Reinvestment Fund

Appropriation Description

The Department of Management is statutorily required to receive property valuation from county auditors on an annual basis. This property valuation is then used by local governments to prepare local budgets and set property tax rates. DOM is also statutorily responsible for the creation, management and receipt of local government budget forms. Currently DOM uses a set of disparate, dated applications (including a desktop application) to manage these statutory processes. Our systems are vulnerable, including to standard

Windows upgrades and platform changes. This vulnerability jeopardizes our crucial, annual, statutory role in administering the property tax process and finalizing tax rates for county auditors, who, in turn, prepare property tax statements for all property owners in the state. Success for this system would be stable, solely web based, integrated application/s which predictably run processes needed to perform DOM and local government statutory duties related to local budgets and property tax. The application/s would be easy for the approximately 1,200 local governments to use, flexible to needed changes (legislative and general enhancements for users) and provide readily accessible public information on property valuations, property tax and local budgets.

Water Trails and Low Head Dam Programs

Rebuild Iowa Infrastructure Fund

Appropriation Description

Appropriation provides funding for Water Trails and Low Head Dam risk mitigation.

Water Trails are recreational corridors and routes on rivers and lakes that provide a unique experience for canoeists and kayakers and provide adequate access points that can be used for planning trips of various lengths and difficulty.

A water trail may also provide access to riverside campgrounds, primitive campsites, amenities such as shelters and restrooms in city, county or state parks. A water trail will have a detailed map showing access points and river mileage and may even provide information on history and area culture, wildlife viewing opportunities and more.

Water Trails are recreational corridors and routes on rivers and lakes that provide a unique experience for canoeists and kayakers and provide adequate access points that can be

used for planning your trips at various lengths and difficulty.

A water trail may also provide access to riverside campgrounds, primitive campsites, amenities such as shelters and restrooms in city, county or state parks. A water trail will have a detailed map showing access points and river mileage and may even provide information on history and area culture, wildlife viewing opportunities and more.

They can help re-connect Iowans to their history, heritage, geology and wildlife. A water trail promotes an ethic of caring that makes us more aware of our surroundings and environment and can be thought of as educational venues.

Low-head dams are extremely dangerous and have led to fatalities of Iowa anglers, boaters, paddlers, tubers, swimmers, and would-be rescuers. Powerful recirculating hydraulics at these small dams can trap and drown unsuspecting river users. Iowa DNR educates all river users about these hazards, provides support for dam-owners to install warning signs in vicinities of dams, and works with dam owners to mitigate safety hazards and fish passage barriers at dams.

Parole, Board of

Mission Statement

Comprehensive and efficient consideration for parole and work release of offenders committed to the department of corrections. Expeditious revocation of paroles of persons who violate release conditions. Careful consideration of victims opinions concerning the release decisions. Quality advice to the governor in matters relating to executive clemency. Timely research and analysis of issues critical to the performance of the board of parole.

Description

The Board of Parole was established in 1907 by the 37th General Assembly. The Board is composed of one full-time chairperson, one full-time vice-chairperson, and three per diem members who are appointed by the Governor and confirmed by the Senate for staggered four-year terms. The Board is directly responsible to the Governor, and the chairperson serves at the pleasure of the Governor. During the 1998 legislative session, the General Assembly funded a

full-time vice-chair position to assist with the administrative responsibilities of the Board. The Board has its own support staff but receives administrative support services from the Department of Corrections.

The Iowa Board of Parole's mission is to reintegrate offenders into the community that can be released from prison without detriment to the public or themselves.

To achieve the mission, the Board:

Performs objective risk evaluations for prison inmates, reviews all eligible parole case files annually, holds hearings with eligible inmates, and selects viable candidates for conditional release on parole and work release.

Revokes the conditional release and returns to prison those offenders that fail while on parole and work release.

Notifies victims of relevant information not less than 20 days before a parole hearing, so victims' opinions may be considered when making parole and work release decisions. Advises the Governor on matters of executive clemency.

Public Defense, Department of

Mission Statement

Provide units and equipment to protect life and property and come to the aid of Iowans in a time of need, to preserve peace and order, and to insure public safety for the citizens of Iowa.

Description

The Iowa National Guard is a dynamic organization operating in an ever-changing environment. The Iowa Army and Air National Guard are organized under Departments of the Army and Air Force tables of organization and equipment, and are trained and equipped in accordance with Department of Defense policies. Our primary purpose is to train and be able to deploy combat ready organizations and units to respond to war and national emergencies. The Iowa National Guard is one of the primary organizations in state government for responding to and mitigating emergency

situations in Iowa. Through the National Guard's unique peacetime status of being under the state governor's control that is provided by the U.S. Constitution, the National Guard is a primary response force for dealing with emergencies and natural and man-made disasters that may occur in the state. We have over one hundred units statewide that are trained and equipped to perform a federal wartime mission and are available to respond to the needs of the citizens of Iowa. We are Citizen Soldiers and Airmen who live amongst every community in Iowa who respond in a time of need of the National Guards three key missions (federal, state, and community). Our primary mission is at home within our communities and State but we will respond to the Nation needs if so called upon. We have proven to be able to work simultaneously with Federal, State, and Local agencies to accomplish the mission at hand. The Iowa National Guard has proudly served the Great State of Iowa for over 150 years and we are honored to continue our service to our communities and State.

DPS Fire Marshal

General Fund

Appropriation Description

This Division is the oldest of the five divisions within the Department of Public Safety, established in 1911. Through promotion and enforcement of fire safety regulations, training, building code provisions, and arson investigations this division helps reduce the loss of life and property by fire. Fire safety code inspections are conducted in a variety of facilities ensuring compliance with both federal and state laws and rules. Those facilities include nursing homes, child care facilities, schools, colleges, hotels, intermediate care facilities and any other building where the public congregates. Arson Investigation Bureau Special Agents are responsible for determining the cause of fires statewide. These agents investigate suspected arson fires along with

bombings and other explosive related incidents. Several agents in the division are also members of the Clandestine Lab Emergency Response Team. The Division is also charged with ensuring the safety and accessibility of buildings. This is accomplished by review and approval of factory-built structures and mobile homes. In addition to reading plans, the bureau oversees enforcement of handicapped accessibility and energy requirements of the State Building Code. The division is responsible for the preliminary review and approval of plans submitted for above ground petroleum storage tanks and L.P. gas installations.

The Fire Service Training Bureau's mission is to provide quality training and education for Iowa's fire and emergency services. Services are provided in Field Programs, Certification Programs, Business and Industrial Programs, Conference, and Research and Development.

Appropriations Detail

SUI - General University

General Fund

Appropriation Description

The University of Iowa is a comprehensive research university with a particular distinction in the arts, humanities, and sciences; a world-class academic health center, and a wide array of exceptional professional programs. The University competes for the best faculty and the most talented graduate and professional students.

In pursuing its mission of teaching, research, and service, the University seeks to advance scholarly and creative endeavor through leading edge research and artistic production; to use this research and creativity to enhance undergraduate, graduate, and professional education and to the

Iowans, the nation, and the world; and to educate students for success and personal fulfillment.

After significant cuts in recent years and a partial restoration for FY 2019, the FY 2020 Higher Education Operating Appropriation Request for SUI of \$221,710,793 includes a \$7M increase for student financial aid.

The strategic plan identifies four complementary, mutually supporting areas in which to invest for accelerated advancement: Student Success, Knowledge and Practice, New Frontiers in the Arts, and Better Futures for Iowans.

The University of Iowa expects to serve more Iowans at all levels during the next year, while also improving the quality of the educational experience and career prospects. This will require sustaining state support as well as reallocations between programs, and continued savings through technology and other efficiencies.

SUI - State of Iowa Cancer Registry

General Fund

Appropriation Description

This Registry is a population-based cancer registry that has served the State of Iowa since 1973. The objectives of the Registry are:

- 1) assembling and editing cancer incidence, mortality, and follow-up data among Iowans and reporting these data to the NCI;
- 2) monitoring annual trends in cancer incidence and mortality;
- 3) providing information on changes over time in extent of disease at diagnosis, trends in therapy, and associated changes in-patient survival; and
- 4) promoting and conducting studies designed to identify factors amenable to cancer prevention
- 5) responding to requests for cancer data and analyses;

6) providing data and expertise for cancer research activities and educational opportunities. The Iowa Department of Public Health has designated responsibility for cancer data collection to the Registry.

The Iowa Cancer Registry allows for the study of the cancer experience of Iowans and focuses national attention and research dollars on this issue.

The Iowa Registry is funded primarily through a contract with the NCI, but the contract requires a portion of the funding for the Registry be obtained from non-federal sources such as the state of Iowa.

Currently, for every dollar the state of Iowa invests in the Iowa Cancer Registry, approximately \$28.86 of federal funds are returned to Iowa through the NCI SEER contract. Additionally, the presence of the Registry and its database have helped attract numerous research projects and funds to Iowa from other federal agencies such as the EPA, the Centers for Disease Control, and the National Institutes of Health; annually several millions of dollars are received from these agencies that are directly attributable to the existence of the Registry.

Following a mid-year reduction of \$3.6K in FY 2018 that continued to FY 2019, the FY 2020 operating appropriation request remains flat with FY 2019 (0% increase) in the amount of \$145,476.

SUI - State of Iowa Birth Defects Registry

General Fund

Appropriation Description

To monitor birth defects in the state, the Iowa Registry for Congenital and Inherited Disorders was established in 1983 through the joint efforts of the University of Iowa, the Iowa Department of Public Health and the Iowa Department of Human Services.

The Iowa Registry for Congenital and Inherited Disorders is located within the College of Public Health at The University of Iowa.

The Registry conducts active surveillance to identify information about congenital and inherited disorders that occur to Iowa residents. Active surveillance entails the use of field staff that collect information by reviewing medical records in hospitals and clinics in Iowa and in neighboring states that serve Iowa residents.

The mission of the Iowa Registry for Congenital and Inherited Disorders is to:

- 1) maintain statewide surveillance for collecting information on selected congenital and inherited disorders in Iowa;
- 2) monitor annual trends in occurrence and mortality of these disorders;
- 3) provide data for research studies and educational activities for the prevention and treatment of these disorders.

Following a mid-year reduction of \$1K in FY 2018 that continued to FY 2019, the FY 2020 operating appropriation request remains flat with FY 2019 (0% increase) in the amount of \$37,370.

In addition, the Iowa Registry for Congenital and Inherited Disorders conducts an outreach program to engage the Iowa community by providing parents of children diagnosed with birth defects resources, materials, and referrals to appropriate clinical, educational, and social services.

SUI - Oakdale Campus

General Fund

Appropriation Description

The Oakdale Campus budget is designed to provide a working environment to stimulate University research, economic development, outreach activities and engage with small start-up companies on the Oakdale Campus. Activities located on the campus include the State Hygienic Laboratory, the Technology Innovation Center, specialized laboratory research functions, and other public service activities.

Following a mid-year reduction of \$52K in FY 2018 that continued to FY 2019, the FY 2020 operating appropriation request for SUI's Oakdale Research campus remains flat with FY 2019 (0% increase) in the amount of \$2,134,120.

The Oakdale Campus budget has been significantly challenged over the last several years for two reasons: declining financial support and increasing stewardship needs for both new and severely-aged facilities.

In FY 2009, the Oakdale Campus budget's primary sources of funding were state appropriations and indirect cost recoveries from research activities. Since then, appropriations have declined by \$587,000 (\$2.7M to \$2.1M). The University has invested capital in innovative and energy savings utilities for the Oakdale campus to reduce costs, but is insufficient without state investment to maintain this vital campus.

The second challenge is the rising operating costs of the campus facilities. In order for the lab to provide its essential state services, this facility requires timely operational responses along with a commitment to maintenance to avoid long-term degradation issues.

SUI - Hygienic Laboratory

General Fund

Appropriation Description

The State Hygienic Laboratory (SHL) statutorily provides analyses and investigations in the areas of disease detection, newborn and maternal screening, environmental quality and disaster/terrorism response, as well as other services that provide state of the art scientific and medical determination, education and discovery to maintain quality of life for Iowans. It is one of only two state public health laboratories in the nation housed by law within the state's university system. SHL performs over 570,000 tests per year which have a direct impact on the health of the citizens of Iowa and its environment.

Following a mid-year reduction of \$106K in FY 2018 that continued to FY 2019, the FY 2020 operating appropriation

request for SUI's Hygienic Lab campus remains flat with FY 2019 (0% increase) in the amount of \$4,297,032.

Continuity of funding continues to be a primary concern for SHL. Federal agencies that oversee programs that generate significant testing activity for SHL have the potential for significant budget decreases. The future of the Affordable Care Act, which contains substantial funding for public health laboratories, continues to be questionable.

The State of Iowa has significant budget challenges that have resulted in cuts for key partner agencies that order testing from SHL, as well as a direct reduction to SHL's appropriation. SHL's fee-for-service revenue is trending downward due to reductions from partner agencies, technology changes that allow more point-of-use testing rather than laboratory-provided testing, and variability in requirements for the schedule of regulated water contaminant monitoring.

SUI - Family Practice Program

General Fund

Appropriation Description

The Family Practice Training Program provides financial, educational, and technical support to a network of seven community-based residencies that train physicians in the specialty of family practice. The residencies are dispersed into regions of the state to help improve the geographic distribution of family practice graduates and physicians in general. The training programs are located in Cedar Rapids, Davenport, Des Moines, Iowa City, Mason City, Sioux City, and Waterloo.

The program has an enrollment of 140 residents over the three-year residency, with approximately one-third of the trainees graduating each year. More than 30 medical colleges are represented in the trainee complement.

This program is a crucial asset to the health status of Iowans and has achieved continuous recognition for the past 25

years. It is Iowa's principal source of new family physicians. During the past 10 years, 68% of the family practice graduates entered Iowa practices, nearly half going to communities with populations under 10,000. The program has now attracted approximately 750 graduates into Iowa communities. This highly successful program is one of the reasons the University of Iowa's College of Medicine continues to rank among the nation's top five medical schools in producing graduates who enter family practice careers.

The training sites also provide valuable educational experiences for University medical residents, and experiences for pharmacy, dental and physician assistant students. These regional training centers serve as the backbone of the University's Statewide Medical Education System.

Following a mid-year reduction of \$43K in FY 2018 that continued to FY 2019, the FY 2020 operating appropriation request for SUI's Family Practice Program remains flat with FY 2019 (0% increase) in the amount of \$1,745,379.

SUI - Specialized Children Health Services

General Fund

Appropriation Description

State funding for Specialized Child Health Services (SCHS) provides the core support for three programs of crucial importance: the Iowa High Risk Infant Follow-up Program, a community-based Comprehensive Cancer Program, and a Rural Hemophilia Program. Each of these programs provides essential services to support family-centered community-based care to children with special needs.

The University of Iowa Hospitals and Clinics' staff provides individualized medical evaluation and subsequent consultation to community providers to support medical care of the child within the local community.

These unique relationships with the community providers are in concert with the University's strategic plan and support the public health initiatives to provide care and support to these children in their local medical homes.

The funding for these three programs creates access for especially vulnerable populations in Iowa to highly specialized pediatric services in a cost-effective manner.

In addition to receiving the benefits of coordinated, comprehensive care in their local communities, patients and their families are able to benefit from improved quality of life in less time lost from work and school, and minimized travel that is necessary for long-term treatment.

Following a mid-year reduction of \$16K in FY 2018 that continued to FY 2019, the FY 2020 operating appropriation request for SCHS remains flat with FY 2019 (0% increase) in the amount of \$643,641.

SUI - Iowa Flood Center

General Fund

Appropriation Description

The Iowa Flood Center (IFC) at the University of Iowa provides Iowans with accurate, state-of-the-art, science-based information to help individuals and communities better understand their flood risks. The IFC's overarching objective is to improve flood monitoring and prediction capabilities in Iowa, while studying and developing strategies to reduce and manage floods. The IFC has the following purposes:

--Host and continue to refine and add new tools to The Iowa Flood Information System (IFIS) -- an easy-to-use online application to provide real-time information on watersheds, precipitation, and stream levels around the state;

--Deployment and monitoring of additional affordable stream stage sensors across the state (in conjunction with the Iowa Department of Natural Resources (IDNR));

--Continued development of high-resolution, web-based flood inundation maps;

--Development of floodplain maps for most of Iowa (in conjunction with the Iowa Floodplain Mapping Project funded by the IDNR);

--Conducting watershed-scale research to understand how small-scale mitigation projects can reduce flood damage in a watershed (in conjunction with the Iowa Watersheds Project);

--Education of graduate and undergraduate students; and

--Continued organization of public outreach programs, press releases, and other activities to share IFC tools and information with the general public.

Following a mid-year reduction of \$29K in FY 2018 that continued to FY 2019, the FY 2020 operating appropriation request remains flat with FY 2019 (0% increase) in the amount of \$1,171,222.

SUI - Primary Health Care

General Fund

Appropriation Description

There are four programs funded by the Primary Care Initiative: the Rural Physician Support Program; the Iowa Health Professions Inventory; the Dept of Family Medicine Pre-doctoral Teaching Program; and the Regional Med Education Center Grant Program. They directly support or complement other operational programs that are educating and training future members of the health professions workforce.

The Rural Physician Support Program is Iowa's principal source of rural physician recruitment, placement and retention services and also provides temporary practice coverage for rural doctors who need leave for vacation, continuing education, or health reasons.

The Iowa Health Professions Inventory gives Iowa the only computerized health professions tracking system in the nation. The system enables the University to track the

changing characteristics, supply, and distribution of Iowa's health care workforce.

The Dept of Family Med has used the Primary Care Initiative to expand the number of faculty positions devoted to the Dept's Pre-doctoral Teaching Program. This program has led to an increase in student instruction in family practice settings and to national awards recognizing the number and percent of medical graduates choosing careers in Family Practice.

The Regional Med Education Center Grant Program helps cover the administrative and logistical costs of having learners in community-based clinical settings. Med, pharmacy, physician assistant, and other students are continuously rotating to community locations for part of their required clinical experience.

Following a mid-year reduction of \$16K in FY 2018 that continued to FY 2019, the FY 2020 operating appropriation request for Primary Care remains flat with FY 2019 (0% increase) in the amount of \$633,367.

ISU - General University

General Fund

Appropriation Description

ISU has a long history of providing a superb experience for its students and graduating students who are creative, technologically adept, and culturally informed for success in the future. Overall enrollments have been strong, and the science-based curricula in engineering, agriculture and life sciences, and human sciences have been especially appealing to incoming students and their families.

Funding from an increase to the state appropriation that supports the general university will be used to address critical capacity needs associated with increasing student growth while maintaining and advancing the quality of academic programs.

Over the past 15 years, the university's student-to-faculty ratio has increased from 13.7 to 19, and continuing to invest in hiring faculty will ensure that the university provides

students with a high quality education. Enrollment has grown 30% in that time and now exceeds 35,000 students. The need continues to hire more high quality faculty to meet student demand in all disciplines, and particularly in the university's signature areas in biosciences, value added agriculture, engineering, health, and information technology.

Additional resources are targeted to support the professional development of advisers and assist advisers as they serve an increasingly diverse and complex student population. ISU is in need of funding to hire additional academic advisers in programs with increased growth, to simplify advising paperwork processes through on-line systems, and to enhance the knowledge and skill base of both faculty and professional advisers through new professional development opportunities.

After significant cuts in recent years and a partial restoration for FY 2019, the FY 2020 Higher Education Operating Appropriation Request for ISU of \$177,624,125 includes a \$7M increase for student financial aid.

ISU - Veterinary Diagnostic Laboratory

General Fund

Appropriation Description

The VDL processes over 80,000 cases from livestock and poultry producers in Iowa and from across the country, and conducts about 1.5 million tests each year. The timely, comprehensive, high-quality diagnosis of diseases and toxicoeses is critical to serving the state's \$17 billion animal agriculture industry. The laboratory is essential in providing the diagnostic testing and information to continue current exports and develop new export markets for Iowa livestock and animal protein products.

As one of the Level 1 VDLs for the National Animal Health Laboratory Network, the VDL continues to be at the forefront in the nation's response to emerging diseases such as High-Path Avian Influenza Virus, Canine Influenza Virus, and Porcine Epidemic Diarrhea virus. VDL faculty and staff were the first to diagnose cases of Porcine Epidemic Diarrhea in 2013 and led national efforts to develop and deploy diagnostic testing, and develop and test new vaccines to control the condition. The VDL was also at the forefront

during the recent High-Path Avian Influenza Virus outbreak in Iowa which demanded that the laboratory run in multiple shifts 7 days per week to assure timely testing.

ISU's VDL requests an increase of \$410,000 to bring the VDL state appropriated funding to \$4,510,000 in FY2020.

ISU VDL's caseload has doubled since 2010. When producers have access to timely and affordable diagnostics, they test their animals earlier and more frequently; thus diseases are detected earlier, preventing the spread to neighbors' animals. 75-80% of ISU VDL's current operational costs are derived from user fees. This level of dependence on user fees (as a percentage of its annual budget) is among the highest in the US.

The funding will be used to purchase equipment and on-board technologies to advance diagnostic testing capabilities, recruit and retain technical staff, and upgrade information technology capabilities for reporting results to clients.

ISU - Agricultural Experiment Station

General Fund

Appropriation Description

The Experiment Station's advances in biological, physical and social sciences have contributed greatly to Iowa. Experiment Station research and ISU Extension not only help Iowa remain a world leader in food production, they address societal issues linked to agriculture, economic development, life-science frontiers, the environment, public policy, and communities. Experiment Station research makes up a significant portion of ISU's annual patent disclosures.

Incremental funds are requested to support the on-going efforts of the Agriculture Experiment Station. Agricultural science and technology help prepare Iowa's animal and crop systems for the future and ensure progress in environmental stewardship. Science-based knowledge is essential to continue agriculture's significant contributions to the state

economy and job creation. Science is also the key to: more sustainably produce food, energy and everyday materials; protect plant, animal and human health; and care for the environment.

State funding for the Agriculture Experiment Station leverages success in competitive funding; over the past seven years, ISU agricultural researchers have brought in more than \$360 million in external funding. Additional state funding for the Agriculture Experiment Station would help address critical needs in Iowa agriculture such as improved soil and water conservation technologies; adding economic value to meats and grains; alleviating seasonal environmental impacts on livestock; and enhancing animal health and disease resistance.

The FY 2020 operating appropriation request for the Agriculture Experiment Station remains flat with FY 2019 (0% increase) in the amount of \$29,886,877.

ISU - Cooperative Extension

General Fund

Appropriation Description

ISU Extension works across Iowa State University colleges, throughout the 99 counties, and with external partners to improve quality of life in the state.

Extension and Outreach is seeing an increasing demand for its programs. Particularly programs that serve small business owners, grow existing industry, and enhance rural communities. In addition, Iowans want clean water, a healthy environment, and a safe, sustainable, and affordable food supply.

Extension and Outreach programs align with the Governor's Healthiest State Initiative to help Iowa become the healthiest state in the nation. K-12 youth outreach develops Iowa's

future workforce and helps fight the "brain drain" by connecting youth with opportunities here in Iowa.

The FY 2020 operating appropriation request for ISU's Coop Extension Service remains flat with FY 2019 (0% increase) in the amount of \$18,266,722.

While incremental funds are not requested at this time, a need exists to support a variety of Extension and Outreach initiatives, especially those critical issues such as Avian Influenza outbreaks, nutrient reduction strategy, drought, floods, widespread plant and animal diseases, insects (emerald ash borer), and policy changes.

Additional resources would ensure that ISU can provide immediate response and education to address these challenges, and support practical research, surveillance, and programs to help communities and individuals plan for the future.

UNI - General University

General Fund

Appropriation Description

UNI's mission is to provide transformative learning experiences that inspire students to embrace challenge, engage in critical inquiry and creative thought, and contribute to society. The focus is educating Iowans who tend to stay in Iowa to work.

As the state's comprehensive university, UNI focuses on educating Iowans who tend to stay in Iowa to work and live. Of alumni who graduated in the last ten years, 75% have stayed in Iowa.

UNI's excellent programs in business, social and behavioral sciences, humanities, arts and natural sciences prepare students to work and contribute in every employment sector across Iowa and provide a meaningful contribution to the state. And while the core focus remains undergraduate education, UNI also provides strong graduate programs that continue to attract students in all stages of life. Recent data shows 92% of UNI graduates were employed or in graduate school within six months of graduation.

UNI's FY 2020 higher education appropriation request of \$99,712,362 includes a \$4M increase and is based on a 0% tuition increase.

The funding increase is based on an analysis of how an equity adjustment and tuition differentiation would boost the university's goals. Strategic uses of these funds include financial aid, enrollment management, student engagement and success, and faculty/staff vitality.

UNI - Math & Science Collaborative

General Fund

Appropriation Description

Since FY 2009, the universities have worked as a team to implement the STEM initiative. This effort has grown to become the Governor's STEM Advisory Council as managed by the Iowa Mathematics and Science Education Partnership (IMSEP). The request is for continued funding at the current level.

STEM workers drive our nation's innovation and competitiveness by generating new ideas, new companies and new industries. Over the past 10 years, STEM jobs grew three times as fast as growth in non-STEM jobs. The STEM workforce will remain central to our economic vitality well into the future, contributing to innovation, technological growth, and economic development.

Maintaining U.S. scientific and technological leadership is essential to the future of our country. However, the United

States is facing a critical talent gap in science, technology, engineering and math, and is not keeping pace with foreign competition. For FY 2019 there will likely be over 2,000 educators and 100,000 children engaged with the Council's programming in more than 3,000 classrooms and out-of-school organizations.

STEM jobs require post-secondary training, but Iowa ranks below the national average in percent of post-secondary majors studying STEM at our colleges and universities.

Governor Branstad's Executive Order 74 created the Governor's STEM Advisory Council. The council's overarching goal is to boost student interest and achievement in science, technology, engineering and math (STEM), so our young people have more career opportunities and our state's economy is more robust. 18 new STEM BEST models would be distributed evenly across Iowa's 6 STEM regions.

The FY 2020 operating appropriation request for the Collaborative remains flat with FY 2019 (0% increase) in the amount of \$5,446,375.

The RRTC assists Iowa manufacturers in the research and development of products containing recycled content materials through the Materials Innovation Service, a program developed in cooperation with Recycle Iowa.

Iowa companies that are replacing mainstream materials with new and innovative composites such as cast metal, plastics, and biomaterials have affordable access to the latest in mechanical, physical, and chemical properties testing for the purpose of by-product reutilization.

The RRTTC works with representatives from Iowa's business and industry community to promote recycling activities in Iowa and to facilitate cooperative efforts among Iowa industries and academic institutions.

The FY 2020 operating appropriation request for the UNI's Recycling & Reuse Technology Transfer Center remains flat with FY 2019 (0% increase) in the amount of \$175,256.

The RRTTC supports applied sustainability research for community outreach, patent applications and support for green business enterprises. Through the RRTTC's project reports, articles and outreach to business, industry, communities and citizens, the Center reaches several thousand individuals each year. The funding also supports student interns work each year on projects concerning sustainability, recycling, solid waste management and its influence on health and water quality, and other related issues. These hands-on experiences raise student awareness of environmental challenges and issues important to the future of Iowa. Presently, the Center is only able to respond to about 20% of its annual calls for research proposals, and outreach activities have been limited.

BOR - Board Office

General Fund

Appropriation Description

Created by the Iowa General Assembly in 1909, the Board of Regents, State of Iowa, is a group of nine citizens who govern five public educational institutions in the state through policymaking, coordination, and oversight, as provided by law.

The Board enhances the quality of life for Iowans by maintaining the educational quality, accessibility, and public service activities of Iowa's three public universities -- the University of Iowa, Iowa State University, and the University of Northern Iowa; and two special preschool/K-12th

grade schools -- the Iowa School for the Deaf and the Iowa Braille and Sight Saving School.

The Board Office provides support to the Board of Regents and formulates policy recommendations for operations, administration, and legislative relations related to academic affairs, legal affairs, and business and finance operations.

While the 2016 General Assembly reduced the Board Office appropriation for FY 2017 by over 27% (\$0.3 million) which was cut again by \$19K in FY 2018 and flat funded thereafter, the FY 2020 request for the Board of Regents Office remains flat with FY 2019 in the amount of \$775,655.

BOR - Iowa Public Radio

General Fund

Appropriation Description

IPR was created by the Board of Regents in 2004 to manage the public radio stations licensed to ISU, UNI, and SUI. Today, the network includes 25 stations, serving 250,000 Iowans every week. IPR's 25 stations touch all of Iowa's 99 counties delivering News, Classical and Studio One music programming 24-hours a day.

IPR's mission is to inform, enrich and engage Iowans through radio programming and other media. IPR enhances civic and cultural connections across the state, strengthening communities and reflecting Iowa's sense of place. Programming is made up of three distinct streams:

--IPR News brings Iowans the best in national and local news programming. It's not just headlines but probing stories and talk programming that promotes a dialogue about the issues and culture of Iowa.

--IPR Classical brings to Iowans 24 hours a day of classical music, including live and recorded performances from concert halls in Iowa.

--IPR Studio One provides an eclectic variety of music that stirs passions and showcases Iowa's vibrant music scene.

After absorbing a mid-year cut \$8,616 mid-year for FY 2019, the FY 2020 operating appropriation request for IA Public Radio totals \$364,648 and includes a \$14,000 increase over the final FY 2019 amount.

IPR receives support from a mix of sources that includes listeners, businesses, foundations, the universities who own the stations (SUI, ISU, UNI), and the State of Iowa. IPR will continue to invest in its fundraising capacity, helping IPR realize its goal of increasing private support for IPR.

SUI - Biocatalysis

General Fund

Appropriation Description

The Center for Biocatalysis and Bioprocessing (CBB) is a one of a kind interdisciplinary academic research center at the University of Iowa. Its mission is to:

- a) enhance faculty and student development in the broad areas of biocatalytic science and bioprocess engineering,
- b) drive innovative industrial fermentation processes through efforts within a state-of-the-art bioprocessing pilot plant facility, and
- c) expand economic development through translational research and the advancement of university-led technology and intellectual property.

The Center for Biocatalysis & Bioprocessing (CBB) is committed to achieving and enhancing the mission of the University through the following activities:

Economic Development: CBB develops both fermentation and separation capabilities to offer scale-up technology, as well as partnering with established and startup companies venturing in biocatalysis, bioprocessing and solutions for production of bio-molecules. ISU - Livestock Disease Research

General Fund

Appropriation Description

Livestock Disease Research is conducted through the College of Veterinary Medicine on diseases of Iowa livestock in order to prevent the high financial losses to Iowa livestock producers that occur each year due to infectious livestock diseases. These funds are leveraged to receive additional funds from external sources for livestock disease research.

The FY 2020 operating appropriation request for Livestock Disease Research remains flat with FY 2019 (0% increase) in the amount of 172,844.

While addition funds are not requested at this time, the Iowa Livestock Health Advisory Council (ILHAC) was created to strengthen Iowa's animal agriculture by strengthening the livestock disease research program in the state.

Funds from this special appropriation provide seed money for research projects, with priority given to those projects with significant potential for economic benefit for the livestock industry. Recently funded projects include: studying porcine reproductive and respiratory syndrome and influenza in pigs, E. coli and Clostridium spp. in poultry, lameness in beef and dairy cattle, mastitis in dairy cattle, pinkeye in cattle and viruses causing reproductive problems in sheep.

This seed money has recently resulted in development of effective vaccines for porcine circovirus and laying hen peritonitis.

Additional funding would allow more animal disease research projects to be funded in areas of highest importance to livestock producers.

UIHC - Rural Psychiatry Residencies

General Fund

Appropriation Description

The state of Iowa is currently working to address the mental health crisis. Key to the effort is increasing access to mental health professionals. However, practicing psychiatrists in Iowa are down 3.5% since 2007.

In recent years, several Iowa hospitals have closed their mental health units due to a lack of qualified staff, including psychiatrists.

Nationally, Iowa consistently ranks near the bottom in the numbers of psychiatrists per capita with 40% fewer psychiatrists than the national average. There is a need to increase the number of psychiatry residency program positions.

UI Health Care is requesting \$400,000 to offer four additional residency training positions to create a Community Psychiatry Track (CPT) within the University of Iowa Psychiatry Residency Program. The four CPT residents will work in under-served areas of Iowa. Currently, 73 Iowa counties (predominantly rural) are without access to a psychiatrist.

The intent is to grow the number of residency positions by four each year for four years.

The intent is to request an incremental \$400,000 each year until the end of the fourth year when 16 residency positions have been established.

ISU - Biosciences Innovation Ecosystem - GF

General Fund

Appropriation Description

Biosciences are critical to Iowa's economy and are vital to the state's future economic development and growth. In the TEconomy report released by the Governor, four bioscience platforms (biobased chemicals, digital agriculture, vaccines, and medical devices) were identified where Iowa has the greatest likelihood of achieving a differentiated leadership position to grow and diversify the state's economy.

These four bioscience platform areas were identified by TEconomy after a detailed analysis considering opportunities drawing on multiple core competencies, research leadership, presence of existing or emerging industry connections,

opportunity for external funding, and limited competition from other states or regions.

As the bioscience sector is heavily dependent on technological advances, leveraging and translating the cutting-edge research in these areas at the Regents Universities is critical to growing Iowa's bioscience economy. ISU has tremendous strengths in the first three platforms, while SUI has significant expertise in the fourth platform, medical devices.

As a companion request, ISU and SUI request \$4 million in recurring state appropriations to work with IEDA and create this innovation ecosystem for the four Iowa bioscience platforms (\$1 million per platform), leveraging their research strengths and leadership in the field to enable accelerated technology transfer and workforce development in these four platform areas.

BOR - Tuition Replacement - Academic Building Revenue Bonds

Rebuild Iowa Infrastructure Fund

Appropriation Description

The 1969 General Assembly passed legislation (Iowa Code 262A) permitting the issuance of Academic Building Revenue bonds to fund capital projects at the Regent universities. The bonding program has enabled the Regents to finance critical academic constructions needs at Iowa's public universities through the public sale of long-term bonds. The issuance of these bonds requires approval of the General Assembly and the Governor. Tuition replacement appropriations represent an ongoing commitment of the state to meet the debt service cost of Academic Building Revenue bonds.

The 2009 General Assembly authorized the Board to issue \$100 million in project proceeds of Academic Building Revenue Bonds to finance the repair, restoration, replacement, and mitigation of flood damaged buildings and facilities at the University of Iowa. In addition to the \$100 million authorization, the 2009 General Assembly redirected \$13 million originally authorized in 2007 for Pentecrest renewal projects to flood recovery and mitigation. The final "flood" series was issued in October 2015.

The tuition replacement request of \$28,098,870 million for FY 2020 reflects a decrease from FY 2019 due to the 2019 maturity of a bond issue and from savings realized from refunding issues in prior years.

TraCS/MACH

Road Use Tax Fund

Appropriation Description

Funding for the TraCS and MACH programs to expand the support to all agencies in the state and support new technology as it is developed.

The TraCS program is an initiative by the Iowa Department of Transportation to collect data from law enforcement at the scene of a motor vehicle collision and send that data electronically to the Iowa DOT. TraCS software and

support is provided by the Iowa DOT at no charge to qualifying Iowa public safety agencies.

The MACH program was initially developed and piloted in Iowa. MACH is an Internet based communications tool that allows public safety agencies to share information, enhancing cooperation and organization during every day activities and emergency situations. MACH uses the Internet and a sophisticated, scalable, and secure Web-services messaging foundation to offer job enhancing features that have, until now, been impractical to provide to the public safety official in the field. The MACH software is also provided and supported by the Iowa DOT to qualifying public safety agencies at no charge.

Veterans Affairs, Department of

Mission Statement

To provide a continuum of care to Iowa's veterans and their spouses in an environment focusing on individualized services to enhance their quality of life.

Description

Veteran Affairs is the department in state government that provides services to veterans and works to increase the public's awareness of veteran's issues. These services encompass two divisions (advocacy services and long-term health care). One division is the Iowa Department of Veterans Affairs administration office located at Camp Dodge. It provides services and support to veterans including education regarding their entitlements under state and federal laws and enhancing their awareness of outreach programs available to them. This division conducts two service schools of instruction each year for the Commissioners and County Directors of Veterans Affairs to update them on benefits for veterans. It also files all reports of

separation (Form DD 214), maintains 4 million records of Iowa veterans from the past four wars, maintains a database of veterans in nursing homes and determines if they have applied for federal Veteran's benefits, and processes and maintains all registration documents for Veterans buried in Iowa. A state aid program for War Orphans paid to a school of higher learning is provided. The second division located in Marshalltown is the Iowa Veterans Home. It delivers long-term health care services for eligible veterans and/or their spouses/widows. The Iowa Veterans Home has 560 operating beds comprised of two levels of care (nursing and domiciliary) and offers 24 hour medical coverage. A full range of services is available including: Food and Nutrition Services; Pharmacy; Recreation Therapy; Transportation to medical appointments at the V.A. Hospitals and Clinics; Contract Services (dentist; optometrist; dermatologist); Speech Therapy; Physical Therapy; Occupational Therapy; Wheelchair Services; Activity Centers (ceramics, wood-working, arts and crafts, and library); Social Work Services; Pastoral Care; Psychology Services; and Psychiatry Services.

The School for the Deaf and the Iowa Braille and Sight Saving School were placed under its jurisdiction at a later date. The board is given by statute the authority to "Have and exercise all the power necessary and convenient for the effective administration of its office and of the institutions under its control...". In addition, it is given many specifically enumerated powers. The Board of Regents consists of nine members appointed on a bi-partisan basis for six- year terms. The terms are staggered with three appointments being made every two years by the Governor with approval of two thirds of the Senate.

Appropriations Detail

SUI - Pharmacy Building Replacement/Improvements

Rebuild Iowa Infrastructure Fund

Appropriation Description

The College of Pharmacy is the fourth oldest college of pharmacy in a state-supported university in the country and has educated pharmacists since 1885. The College has developed nationally and internationally recognized programs of research and patient care delivery. Admission to the program is extremely competitive; graduates are well prepared and in high demand following graduation. For the past ten years the College has had a 100% placement rate. Graduates of the College are in 95 of Iowa's 99 counties, providing needed services every day; in some instances, they are the only point of access to medical care. College of Pharmacy students must complete 1,600 hours of pharmacy practice experience to earn their PharmD degree; the economic impact of the work of these students is estimated at \$2.3 million annually.

The services College of Pharmacy graduates provide have changed dramatically since the construction of the original Pharmacy Building in 1961. The age, condition, configuration and outdated mechanical and electrical systems of the original building are constant strains on the quality and productivity of the College's faculty and students. (The facility consumes more energy than any other building on campus on a square footage basis.) To perfect clinical skills, small collaborative spaces are required for critical thinking, modeling and practice. This type of space does not exist in the current facility. As a professionally accredited program, the College is periodically reviewed for reaccreditation. A component of the accreditation review is the quality of its educational facilities.

The University proposes to replace the 1961 building as modernization of it cannot serve the intensive educational space needs of the College. In combination with new construction, the University intends to modernize the 1996 facility to meet current standards and expectations. The project would address approximately \$12.0 million of deferred maintenance.

ISU - Biosciences Facilities

Rebuild Iowa Infrastructure Fund

Appropriation Description

The biosciences are central to the core mission of Iowa State University and biosciences-based industries are a primary economic driver for the state of Iowa. More than 450 faculty members from twenty-five departments and five colleges are actively involved in the area of biosciences. More than 6,000 students are studying biosciences disciplines; this 27% increase over the past 5 years has been driven by both student interest and employer demand. A critical shortage of space, both in terms of capacity and functional capabilities, in addition to antiquated, functionally obsolete facilities (some of which are more than 40 years old, substandard and should be demolished), present significant programmatic challenges and limitations to providing an advanced, high quality learning and research environment for the biosciences.

This project will include a new Biosciences Building, renovate existing space, and consider additions to existing build-

ings as part of a holistic, comprehensive plan to address the space needs of the biosciences programs.

To engage students in meaningful learning and to support new teaching practices, classroom and teaching laboratories need to be expanded and transformed to include current educational technology and instructional laboratory capabilities. Existing buildings do not provide the types of collaborative space for team learning and student engagement that support a high-quality educational experience.

The biosciences programs also have a critical need for multi-disciplinary, high quality research labs that include computational, biological, wet, and specialized instrumentation laboratory space. Existing buildings, which were not designed and constructed with laboratory flexibility and modularity as a program element, cannot accommodate increased collaboration across multiple disciplines along with flexible research space that responds to changes in research activity.

ISU - Student Innovation Center

Rebuild Iowa Infrastructure Fund

Appropriation Description

One of the University's great strengths is student-centered learning, found in both the classroom and through interdisciplinary student organizations. Project-based, student leadership experiences differentiate the University from other collegiate programs; interdisciplinary student organizations also provide value-added educational and personal development experiences.

The proposed 175,000 gross square foot facility would support fabrication, large-scale, student interaction, hands-on and discovery-based learning, and co-curricular activities for the Colleges of Engineering and Design, while providing for potential collaboration with multiple other disciplines. This Center would be a highly flexible, technology-rich, dynamic space with extended access, technical support and centralized equipment facilities. It would encourage

experimentation, innovation and interdisciplinary investigation. Cooperative, problem-driven teams would communicate and collaborate with peers and colleagues; this would occur both formally and informally, face-to-face and virtually. The physical environment would allow students to develop a depth of knowledge in a specific area, as well as the breadth of skills in different, but related areas. The experiences could be translated into real-world opportunities for economic development and practical application in the workplace.

The Center would also be a focal point for industrial collaborations through student organizations, capstone design courses, and industry-sponsored projects and design competitions.

The \$40 million ask from the state (over four fiscal years) would be combined with \$40 million in private funds for an \$80 million total project.

ISU - Veterinary Diagnostic Laboratory

Rebuild Iowa Infrastructure Fund

Appropriation Description

As the only full-service and fully accredited veterinary diagnostic lab in the state of Iowa, the ISU Veterinary Diagnostic Laboratory (VDL) serves to protect animal and human health. It advances Iowa's \$17 billion dollar animal agriculture industry while teaching and conducting research.

VDL faculty and technical staff have grown from 11 faculty and 20 staff in 1976 to 25 faculty and 120 staff today. The VDL team processes more than 75,000 diagnostic case submissions and conducts more than 1.2 million diagnostic assays each year. Current space, functional layout, and building environmental systems have a serious negative impact on VDL's ability to serve efficiently.

These growth and space issues affect the lab's ability to incorporate new technologies, ensure separation of incompatible activities, and respond to the risk of disease outbreak.

With the exception of the addition of BSL-3 lab space in 2004, VDL's existing footprint and infrastructure have not changed since it was occupied in 1976. This project would address mechanical, ventilation, plumbing, electrical, data, and life safety issues. In addition, the neutralization/disposal of infectious agents, test samples, and animals must be considered in the design of the new facility.

The following appropriations would be used to construct this new facility:

\$20.0 million: FY 2019 Capital Request

\$20.0 million: FY 2020 Capital Request

\$20.0 million: FY 2021 Capital Request

\$20.0 million: FY 2022 Capital Request

\$20.0 million: FY 2023 Capital Request

\$100.0 million: total

In addition to these state funds, the University anticipates receiving \$20.0 million in gifts and utilizing \$4.0 million in University funds for a grand total of \$124 million.

SUI - Main Library - Modernization

Rebuild Iowa Infrastructure Fund

Appropriation Description

The Library has received few updates. Current crowding makes effective use of the facility very difficult. As modern learning methods develop, obsolete layouts continue to worsen. The mechanical and electrical systems are aging and inefficient.

The following appropriations would construct this project:

\$16.38 million: FY 2020 Capital Request

\$27.30 million: FY 2021 Capital Request

\$10.92 million: FY 2022 Capital Request

\$54.60 million: Total Capital Request for State Funds

The Main Library contains more than 427,000 gross square feet and has the largest amount of deferred maintenance (\$29.6M) than any other main campus facility.

To date, the university has renovated 14% or 60,000 square feet of the Main Library, including the \$14.5 million Library Learning Commons project on the lower level, which opened in Fall 2013, a separate renovation of fifth floor staff/administrative space, and a separate improvement of the main floor gallery space. Outside of these projects, the Main Library remains essentially, as it was built in 1951.

In 2016, Phase I of the Main Library modernization was done by building a \$21.5 million off-site warehouse facility on the east side of Iowa City to store five million volumes. This facility was funded by non-state appropriated funds.

Mechanical and electrical systems would be upgraded and spaces would be reconfigured to support modern student learning methods. ADA accessibility would be improved.

ISD - Long Hall Renovation

Rebuild Iowa Infrastructure Fund

Appropriation Description

J. Schuyler Long Hall, built in 1930, serves as the high school and middle school building. This 88-year-old building has had an inefficient building envelope, mechanical and electrical systems for a number of years. Ventilation and air circulation is also inadequate.

The project would replace the heating and air conditioning systems (window units), upgrade the electrical system including new lighting and power, install a new fire suppres-

sion system, address issues with tuck pointing of the brick and mortar, replace the leaky windows and renovate classrooms to accommodate the needs of deaf and blind students. There are environmental issues such as water seeping into the walls and around windows, creating water damage and mold within the building.

The following appropriations would be used to construct this project:

\$4.325 million: FY 2020 Capital Request

\$4.325 million: Total Capital Request for State Funds

BOR - Fire Safety / Deferred Maintenance

Rebuild Iowa Infrastructure Fund

Appropriation Description

Regent facilities are inspected and evaluated for fire and environmental safety issues by the State Fire Marshal's office and/or the institutions. On-site inspections identify and prioritize fire safety deficiencies. Correction and time-tables are approved by the State Fire Marshal's office. The institutions carry out corrections.

The following appropriations would address deferred maintenance, fire and environmental safety, campus security, regulatory compliance and energy conservation issues.

\$ 20.0 million: FY 2020 Capital Request

\$ 20.0 million: FY 2021 Capital Request

\$ 20.0 million: FY 2022 Capital Request

\$ 20.0 million: FY 2023 Capital Request

\$ 20.0 million: FY 2024 Capital Request

\$100.0 million: Total Capital Request for State Funds

Regent institutions reported a total of \$938.9 million in outstanding deferred maintenance in general fund facilities and utilities for Fall 2018. This is a 12% increase over Fall 2017's total of \$837.3 million. Generally, end of life milestones are being reached for many buildings, especially those built in the 1960s and 1970s.

Academic/research/administrative (general fund) facilities that use these funds represent 30 percent of all state facilities.

UNI - Industrial Technology Center Renovation/Addition

Rebuild Iowa Infrastructure Fund

Appropriation Description

This project would renovate 64,000 gross square feet of the Industrial Technology Center (ITC), build a 45,000 square foot addition for specialized laboratories, offices, and classrooms, and eliminate \$10.1 million in deferred maintenance.

Description:

In 1990, the state-of-the-art metal castings area was added. Outside of this, ITC is outdated and has had only minor improvements, since opening in 1974. Much of this facility was designed around educating shop teachers for high school. There are rooms that are not ADA compliant, best safety practices, or best teaching practices. Today's needs require ITC to increase and reorganize space, create student-centered, collaborative learning spaces, enhance technology and equipment, and update building systems.

This project would meet the needs of Iowa industry, construction trades, and future teachers of STEM disciplines. The project aligns well with the Iowa Department of Education's Initiative Career and Technical Education program by preparing teachers, who prepare secondary school students.

Appropriations and funds that would be used:

\$2.205 million: FY 2020 Capital Request

\$13.965 million: FY 2021 Capital Request

\$21.840 million: FY 2022 Capital Request

\$38.010 million: Total Capital Request for State Funds

\$4.000 million: private or other funds

\$42.010 million: Total

It would support programs that are financially viable and self-sustaining by increasing research and associated funding through NIH (National Institute of Health), NSF (National Science Foundation), and industry grants, while reducing the reliance on the General Education Fund.

ISU - Parks Library Student Learning Hub

Rebuild Iowa Infrastructure Fund

Appropriation Description

Approximately 600 seats for students would be added, improving the seats-to-student ratio from 1:16 to 1:12. Collaboration spaces would more than triple, going from eight rooms to 30 technology-enhanced spaces. Level 2 would become an active learning commons space, with collaborative group spaces, additional seating and open lab/classroom space. Level 3 would include space for graduate students, additional open seating and technology-equipped group study rooms.

Energy-inefficient HVAC equipment on the fourth floor that is 50 years old would be moved to a new penthouse. The 8,000 square feet of mechanical space left behind would be the future expansion of the Special Collections and University Archives. Print collection on second, third and fourth

floors would be moved to high-density storage shelves in the basement.

The following appropriations would be used to construct this project:

\$10.0 million: FY 2020 Capital Request

\$16.0 million: FY 2021 Capital Request

\$26.0 million: Total Capital Request for State Funds

\$2.0 million: private or other funds

\$28.0 million: Total

The \$2.3 million "Parks Library Restroom Renovations" project, funded by Iowa State University, is now underway and is the first critical step in revitalizing Parks Library. The project will increase restroom capacity, address ADA accessibility, add gender-neutral restrooms and a lactation facility and correct deferred maintenance on all five floors of the 1960s addition.

IPR - Replace Transmission Equipment

Rebuild Iowa Infrastructure Fund

Appropriation Description

The following appropriations would be used to construct this project:

\$1.43 million: FY 2020 Capital Request

\$1.43 million: Total Capital Request for State Funds

Of the \$1.43 million, \$830,000 would be used to replace WOI-FM's antenna, transmission line, transmitter and studio-to-transmitter link. WOI-FM's main transmitter system is over 20 years old, while their analog back-up transmitter is 40 years old. This project would ensure HD (digital) radio-capability. WOI-FM is the main signal for the

Iowa Public Radio network, serving 60,600 listeners in 15 counties including the Des Moines/Ames area.

Of the \$1.43 million, \$350,000 would be used to replace KSUI-FM's transmission line and studio-to-transmitter link. The transmission line, which connects the transmitter on the ground to the antenna on the tower, failed catastrophically 2015 and needs replacement. KSUI is IPR's largest classical signal in eastern Iowa, serving 48,000 listeners in 13 counties, including Iowa City, Cedar Rapids and the Quad Cities.

Of the \$1.43 million, \$250,000 would be to replace KICP-FM's antenna and transmitter. On several occasions, power demand has exceeded service availability, resulting in loss of service. It includes replacing the broadcast antenna with a higher gain model and a new transmitter. A higher gain antenna allows for much lower electrical costs. KICP is the largest classical signal in central Iowa, serving 12,000 listeners.

Fire & Environmental Safety-Deferred Maintenance-PublicRadio

Rebuild Iowa Infrastructure Fund

Appropriation Description

Under the institution's safety programs, each building is inspected and evaluated for fire and environmental safety issues by the State Fire Marshal's office and/or the institution's safety personnel. On-site inspections and evaluation processes identify, categorize, and prioritize fire safety deficiencies. Methods of correction and timetables are approved by the State Fire Marshal's office. Corrections are carried out by the institutions.

Regent institutions reported a total of \$779.2 million in deferred maintenance in general fund facilities and utilities for Fall 2016. This is a 3.6% increase over Fall 2015's total of \$751.4 million. In general, end of life milestones are being reached for many building systems especially those built in the 1970's and 1960's. The \$100 million included in the Five-Year State-Funded Capital Plan for FY 2019 - FY 2023 would make a major impact toward addressing these needs.

Academic/research/administrative (general fund) facilities that use these funds total approximately 18.5 million gross square feet with a \$9.1 billion replacement value.
